Shift Leader

Rogers Plus

“Wayne worked for me from 2008-2009 in the capacity of a Shift Leader at Rogers Plus. His enthusiasm for his job and for customer service was ranked at the top of my team, and he would consistently get the same feedback from his customers. Wayne was one of my top Sales Reps and his product knowledge was outstanding. He always ensured to be up to date on the latest and greatest technologies that Rogers had to offer so he could sell with confidence to our customers. I would recommend Wayne to any employer.”

Melissa Gobbett,
Store Manager and Area Trainer, Rogers Communications 2006 to 2010 managed Wayne at Rogers Plus

Website Developer

World Tree Technologies, Inc.

“Wayne's work ethic, integrity, and likability made him a great addition to our team. You will be beyond impressed by his work performance, talent and the immense knowledge he has for his craft. Once you hire Wayne, you will never let him go!”

Wendy Burton,
Hired Wayne as a Graphic/Web Designer in 2008

Student

Centre for Arts and Technology

“Wayne is a fantastic young man. He has an infectious personality that contributes greatly to an environment and truly values the creative process. A lifelong learner who's animation will only get better the more he understands and accepts his own brilliance.”

Rawle Ian James, Manager,
Employment Readiness, Centre for Arts & Technology. Taught Wayne at Centre for Arts and Technology

“Wayne demonstrates great passion and energy in both his work ethic and talents. He has excellent employable skills such as, but not limited to, teamwork, communication, technical efficiency, self starter and time management. He would be an asset to any employer.”

Sean Ridgway,

Dept Head/Instructor, Centre for Arts and Technology. Taught Wayne at Centre for Arts and Technology

“Of all my fellow students during my time at the Centre for Arts and Technology, no one was as stoic, diligent, professional or tireless than Wayne. To be honest I don't think I've ever met anyone who was that dedicated and determined with his future profession. Wayne has a multitude of talents; a true renaissance man of the digital age. Wayne will constantly deliver a quality product in a timely manner and always conduct himself in a professional one. Studying with him for two years has proven that he's more than capable of delivering whatever he promises on time and right the first time.”

Matthew Stewart,
Student, Centre For Arts and Technology Okanagan. Studied with Wayne at Centre for Arts and Technology

“I have known Wayne Miles professionally for a couple of years and have found him to be a talented, creative, and a diligent individual. He is a man of integrity and his work exhibits a high level of professional standards. I feel that Wayne would be an asset to any organization looking to hire him.”

Brent Scott,
Teacher Assist / Tutor, Center For Arts and Technology. Taught Wayne at Centre for Arts and Technology

“Probably one of the hardest workers I know. A double threat in computers with his knowledge of IT and creative 3D work. He was pretty much an unofficial teachers aid of our Internet publishing course. Often his only reason for doing a project to its extreme was “because I can”, a testament to his work ethic. A kind, high energy, hard working soul, I'd recommend him to anyone who needed to get things done.”

Luke Lansing,
Student, Centre for Arts and Technology Okanagan. Studied with Wayne at Centre for Arts and Technology

“At CATO, whenever a classmate was having trouble figuring out a new program, or was just trying to troubleshoot something, Wayne was always one of the best go-to guys. Don't let the nervous appearance fool you; he's extremely talented, hard working, eager to help others, and fun to be around. No workplace should ever be complete without a Wayne.”

Jennica Hogg,
Student, Centre for Arts and Technology. Studied with Wayne at Centre for Arts and Technology
